

# SHIBA HEIST

## WHITEPAPER

# INTRODUCTION

Shiba Heist is orchestrated by sophisticated heist experts lead by an intelligent yet influential leader (Elon Musk, also known as The Professor), who takes cryptocurrency with the code of dishing out dividend rewards to all heist employees.

Hold \$HEIST and you can earn rewards of your choice, play games, stake & much more with the latest BSC gem! With P2E games to earn \$HEIST, anti-whale systems, moonshot buybacks and other DeFi tools we will change the face of BSC.

## DISCLAIMER

*The content of this website and any information within the whitepaper or official documentation are provided for information purposes only and shall not in any way constitute an investment or investment advice in any product disclosed. Buy at your own risk. Shiba Heist, (\$HEIST) is a meme token. It is strongly recommended that you seek professional investment advice before making any investment decisions. Any investment decision that you make should be based on an assessment of your risks in conjunction with your investment advisor.*

# 01 ABSTRACT

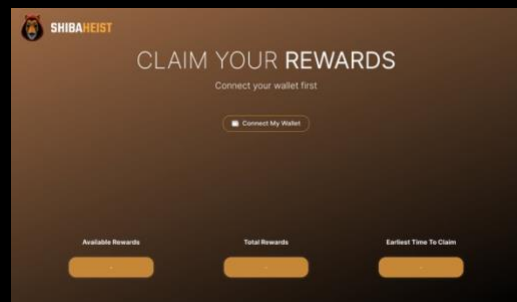

## \$HEIST Lottery

The lottery wallet holds 1.05% (Max wallet) of the supply and receives rewards just the same as everyone. Each week, one lucky holder will be able to take this duffel bag of rewards home with them. The top 20% of holders will be entered into the randomizer and the winner will be notified and paid the rewards on voice chat.

## Rewards Dashboard

Rewards dashboard is a decentralized tracking dashboard where users can change their automatic Shiba rewards for over 8 different tokens!

## Mint Swap - Coming Soon

Mint Swap will be a decentralized exchange (DEX) where users can swap any BEP-20 token for another one. The interface will be intuitive and simple to use, with a carefully designed UI to appeal to all Shiba Heist users.

**P2E Game** - In partnership with ThunderVerse, we have launched a P2E game with weekly rewards! 163K \$HEIST tokens and 20k \$THUNDER tokens are required to play. Weekly rewards to the top 50 on the leaderboard!

# 02 VALUES

## UTILITY

Thinking bigger and with the goal of sustainability and longevity. Shiba Heist's (\$HEIST) ecosystem will provide use-cases that will further the adoption of multi dividends, NFT's and the mass adoption of decentralized gaming.

## COMMUNITY & HEIST

Every holder of the Shiba Heist comes first and must understand the integral backbone of the heist. The robbery concludes that time is money, and as such we require our community to grow, take the lead and develop the Shiba Heist into a story and gaming ecosystem built from the community. We must not harm any hostages, but we must take action, together we thrive but divided we crumble

## TRANSPARENCY

Conducting a Heist is no easy task. We are risking our lives in the heist to deliver you a vast selection of tokens! As such we work alongside our community in Telegram to understand the user experience and usability of our games (see heist plan) Gain passive income in different tokens of your choice or just buy additional \$HEIST with your rewards.

## CHARITY

Helping those who can't help themselves is at the forefront of our mind. We want to be able to help and change as many lives as possible. Not only do our holders earn from rewards, but 1% of all transactions go to our charity wallet. The community votes on which charity we donate to.

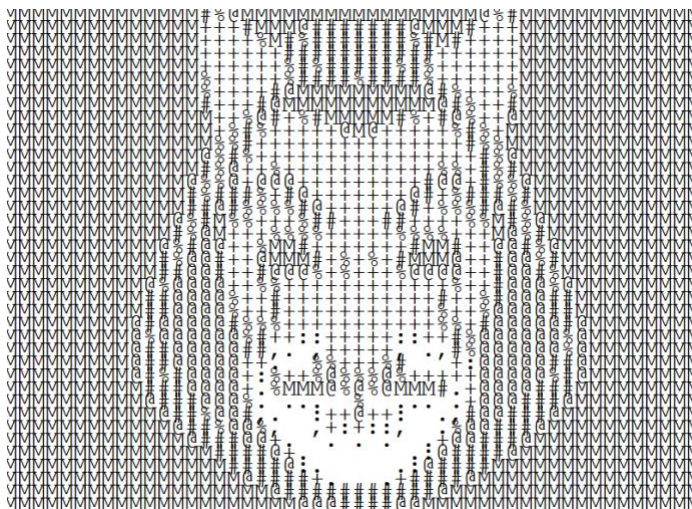

Every two weeks, we will donate the balance of the charity wallet to the voted upon charity!

# 03 SHIBA HEIST (\$HEIST)

Binance Smart Chain (BSC), was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20. Known for 5 second block speeds much faster than doge with 1 minute block speeds. These 2 articles compare block speed:

Doge 1 Minute: <https://coinsutra.com/transaction-speeds>

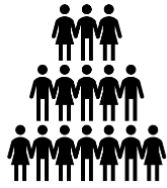

Bep20/BSC 5 Seconds: <https://trustwallet.com/blog/binance-smart-chain-in-numbers>

Advantages of the Binance smart chain are: It's a proprietary blockchain, which will provide security and safety to all users and developers.

Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions.

Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.

# 04 ECOSYSTEM

3% of every transaction is used for marketing and outreach to grow and prosper for the long term benefits of our holders and community.

We welcome everyone into the community and embrace diverse perspectives to help mould Shiba Heist into one of the best cryptocurrency communities to be in.

## MARKETING & COMMUNITY

On every transaction in the \$HEIST network a 5% fee is automatically redistributed to existing holders. You can choose between any of over 10 different tokens to switch your rewards on our dashboard.

There is a 1.05% maximum wallet holding amount! The maximum amount allowed to swap at one time is 0.5%!

## INSTANT REWARDS

Liquidity is locked for a minimum of 12 months on Pancake Swap launch.

3% of each transaction is permanently added to liquidity. This is to ensure sustainable growth of the project, create a strong and stable chart and ensure a steady price floor.

## LIQUIDITY LOCKED

## CHARITY

1% of every transaction is deposited into the Charity wallet. Every two weeks, we will make a donation to the charity that the community has voted for.

# 05 \$HEIST PROTOCOL

**Buy Tax = 12%**

**Sell Tax = 12%**

5% of every buy and sell gets automatically redistributed to holders. Choose between over 10 different tokens to switch your rewards on our rewards dashboard.

3% of each buy and sell is going to fuel our heist planning resources. This tax helps the growth of the coin, like Marketing, Development, and Buyback.

3% of each buy and sell is permanently added to liquidity with a buy back and burn.

1% of each transaction is deposited into the charity wallet for donations

**Rewards are automatically paid out in SHIB unless you choose otherwise.**
